OUR CONTENT

TV

Based on our script with the same name Angel Couture magazine shows in pictures beautiful scenes with six actors who play rich heirs of modern aristocrats. They represent golden youth of our days. Our protagonists run this fashion magazine creating a new format content that opens curtains on the inside world of the media.

FASHION

Our characters have their favorite designers, and each one of them represents an individual style. Our actors show their looks and tell about new trends in fashion in special chapters in our magazine, like Angels Style, Season Sensations, Local Shopping, Jewelry Box, Our Top Designers and Red Carpet.

ART

Angel couture is designed in a unique artistic way, each page has its own style with the resemblance of our characters' looks. Fashion sketches of our actors in designer outfits and drawings of fashion houses make each story more vivid and beautiful. We try to make a small piece of art of every page of our magazine.
